

**DRAWING AMENDMENTS**

Applicant has attached herewith two (2) complete REPLACEMENTS SHEETS particularly for Figures 2, deleting the extraneous numeral "80", and Figure 7, correcting the reference to "72B". Figure 7 has also been amended to change the rounded corners reference numeral from "300" to "301", as "300" references the dove-tail grooves of Figure 5. The specification has also been amended to correctly reference numeral "301", as set forth above.

REMARKS

Claims 24 through 36 have been previously allowed. Applicant, through this Amendment, has canceled Claims 8, 10 & 13, and has amended Claims 1, 12, 14 & 22. The claims have been amended in conformance with the Examiner's indication of allowable subject matter.

Applicant would also like to note that the Ho reference, U.S. Patent No. 4,771,897 entitled Key Hanging Device, does not address the problems and challenges Applicant has overcome, nor does the '897 illustrate the same mechanical designs. Ho discloses a particular key ring/hanging assembly which does use a bracket and slide components, but in no manner teaches or suggests Applicants accessory mounting designs, functions or components.

Applicant has amended the specification and drawings to overcome the objections raised.

In view of the instant Amendment and Remarks, the allowed claims, and the Examiner's indication of Allowable Subject Matter, this case is in condition for allowance. Applicant respectfully requests action to that end.

Should the Examiner have any remaining questions or comments, the undersigned would appreciate a telephone call to possibly expedite this case.
